-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. The drawings were received on 3 February 2004. These drawings are acceptable.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1 through 13 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In the amendment filed 18 August 2003, paper no. 6, applicant amended Claim 1 to include the limitation "each of said at least one subscriber line unit having ... an adjustable line termination characteristic". While applicant's original disclosure makes reference to the subscriber line unit providing a line termination characteristic (page 4, lines 4-6), the disclosure makes no reference to an **adjustable** line termination characteristic. As such, the limitation constitutes new matter.
4. Claims 2 through 7 depend from Claim 1. As such, they fail to comply with the written description requirement for the same reason.
5. Claim 8 includes the same unsupported limitation as Claim 1. As such, it fails to comply with the written description requirement for the same reason.

Art Unit: 2644

6. Claims 9 through 13 depend from Claim 8. As such, they fail to comply with the written description requirement for the same reason.

Response to Arguments

7. Applicant's arguments with respect to all claims have been considered but are moot in view of the new ground(s) of rejection.

8. Applicant alleges that Ozeki fails to teach separate recognition and control units. Examiner respectfully disagrees. Ozeki discloses a system control section (Fig. 1, reference 1) that corresponds to the recognition unit and "performs control processing of this whole facsimile terminal" (paragraph 0006) and a separate modem section (Fig. 1, reference 11) that corresponds to the control unit, is connected between the system control section and the network control section (i.e., subscriber line unit) and operates in V29, V27ter, V33, V17 or V21 mode (i.e., adjusts transmission characteristics) (paragraph 0006).

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 2644

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
